

displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This information collection request is designed to enable the EPA to provide notice to foreign purchasers of unregistered pesticides exported from the United States that the pesticide product cannot be sold in the United States. Section 17(a)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) requires an exporter of any pesticide not registered under FIFRA section 3 or sold under FIFRA section 6(a)(1) to obtain a signed statement from the foreign purchaser acknowledging that the purchaser is aware that the pesticide is not registered for use in, and cannot be sold in, the United States. A copy of this FPAS must be transmitted to an appropriate official of the government in the importing country. This information is submitted in the form of annual or per-shipment statements to the EPA, which maintains original records and transmits copies thereof to appropriate government officials of the countries which are importing the pesticide. This information collection request also includes the burden imposed by export labeling requirements, which meet the definition of third-party disclosure. In addition to the export notification for unregistered pesticides, FIFRA requires that all pesticides include appropriate labeling. There are different requirements for registered and unregistered products. This information collection has been constant since the implementation of the 1993 pesticide export policy governing the export of pesticides, devices, and active ingredients used in producing pesticides.

Respondents/Affected Entities: Entities potentially affected by this ICR are individuals or entities that produce and export pesticides.

Respondent's obligation to respond: Mandatory.

Estimated total number of potential respondents: 50.

Frequency of response: Annual or on occasion.

Estimated total burden: 17,993 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Estimated total costs: \$ 1,224,655 (per year), includes no annualized capital investment or maintenance and operational costs.

Changes in the estimates: There is a decrease of 6,477 hours in the total estimated respondent burden compared

with that identified in the ICR currently approved by OMB. This decrease reflects EPA's updating of burden estimates for this collection based upon historical information on the number of responses per year. Based upon revised estimates, the number of exported products has decreased from 3,600 to 2,411, with a corresponding decrease in the associated burden. This change is an adjustment.

Courtney Kerwin,

Acting Director, Collection Strategies Division.
